

Activity 1: Identifying Cause and Effect

Read the following paragraph. Then, write a cause-effect diagram showing the relationship between the events.

Because the weather was so hot, the children went to the beach. They played in the sand and built a sandcastle. When the tide came in, they watched the waves crashing against the shore.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.

Write a cause-effect diagram showing the relationship between the events in the paragraph above.
